greenlake primary care

Direct Primary Care

Membership offers in-person, phone, email, and virtual appointments for a set monthly fee. By not billing insurance, DPC removes administrative costs making it affordable. DPC allows for more personal and individualized attention to the patient's health and wellness, with longer appointment times that are focused on the patient's goals rather than checking boxes for insurance companies. There are no co-pays, co-insurance, or hidden expenses.

Greenlake Primary Care puts patients at the center of their care with their physician as a trusted partner.
